## FASCIA OUTLET

Fits easily & looks good at the same time.

The Fascia Outlet designed by Zambelli is connected to the downpipe of the roof drainage system in just a few steps. Thanks to its lip seal ring, the Fascia Outlet fits precisely and keeps closed - without elaborate hole cutting.

The Fascia Outlet creates a gapless connection between the façade, flat roof and downpipe. The integrated perforated grid also prevents leaves and dirt from getting in - thus additionally counteracts clogging by snow and ice in winter.

**A solution - visually appealing and compatible with the most common drain pipes made by Zambelli!**

## YOUR BENEFITS

- ▶ Modern alternative to the classic hopper
- ▶ Attractive, slimline appearance
- ▶ Easy to install, requiring no separate fixing or prior machining
- ▶ High-quality craftsmanship

## MATERIALS & NOMINAL SIZES

The Fascia Outlet is available in the specified sizes and materials.

Nominal Sizes	Titanium zinc	ZM-robust
80/75	●	●*
100/75	●	●*
