EVERYTHING SANDWICH?

Those who have less time like to grab a sandwich. That now applies also with roof cladding. Those who have less time grab the new Zambelli gutter hook set for sandwich panels. This now also applies to roof gutter assembly. Instead of laborious workarounds, this application-optimized installation solution is quick and elegant at the same time.

Two components: clamp and the gutter hook formed to fit exactly on a sandwich panel.

5 - 15°
Roof pitch

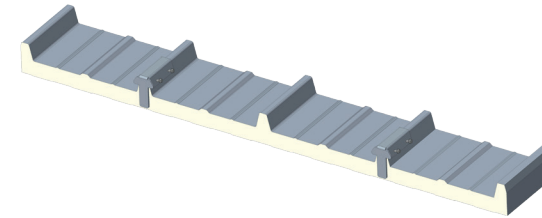

SIMPLY QUICK & NICE.

ASSEMBLY & USE

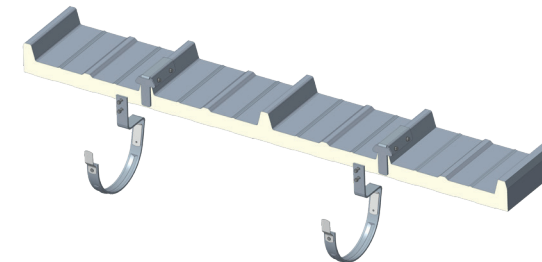

STEP 1:

Set clamp and screw on in preset holes.

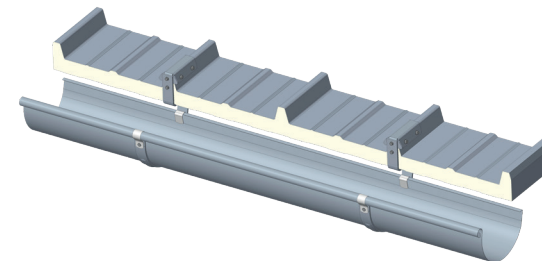

STEP 2:

Fix gutter hook professionally in front of the clamp (with/without slope) with the help of enclosed screws.

STEP 3:

Install gutter and bend springs.

IMPORTANT FACTS AT A GLANCE

- ▶ available in sizes 280 (only for centre thickness of 0 mm to 60 mm), 333 and 400 for all popular sandwich panels
- ▶ preset on side screwing on sandwich profile
- ▶ applicable for roof pitches of 5° to 15°
- ▶ no need of bending of the hooks
- ▶ applicable for centre thicknesses of 0 mm to 160 mm

The Zambelli gutter hook set includes the clamp, the gutter hook, a seal and screws. The set is available in galvanized material ● and galvanized-coated material ●.
