SIMPLY COVERING FUNCTIONS

MADE IN GERMANY

REMARKABLE VARIETY

The Zambelli material and surface programme gives you the opportunity to cut your own path. We offer you the right roof for every architectural style. You search something outstanding? No problem by counting on RIB-ROOF. You want to continue traditions? No problem by counting on RIB-ROOF. You want to combine function, aesthetics and economy? No problem by counting on RIB-ROOF.

ICH MACH'S EINFACH.

Take advantage of a wide range of material and surface selections. We use only tested and proven materials. Zambelli is externally monitored by the Hanover Material Testing Institute (MPA). This guarantees a long lifespan for your roof.

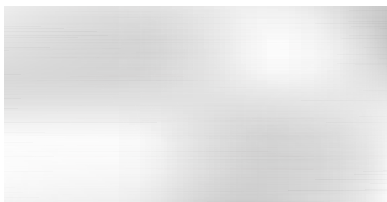

MATERIAL SELECTION

ALUMINIUM

mill
stucco-embossed /mill finish
0.8 / 1.0 mm

- low weight
- weather resistant and sturdy
- stucco-embossed reduces glare by means of diffuse reflection
- available both in the natural finish and colour-coated

ALUMINIUM

surface-treated
0.7 / 0.8 / 1.0 mm

- low weight
- weather resistant and sturdy
- standard RAL- colors
- qualities: PE- and PVDF
- custom colours
- anodised aluminium

STEEL SHEET

galvanised and colour-coated
0.63 mm

- standard RAL- colors
- qualities: PE- and PVDF
- custom colours
- with aluminium-zinc alloy

TITANIUM ZINC

mill finish or pre-weathered
0.7 / 0.8 mm

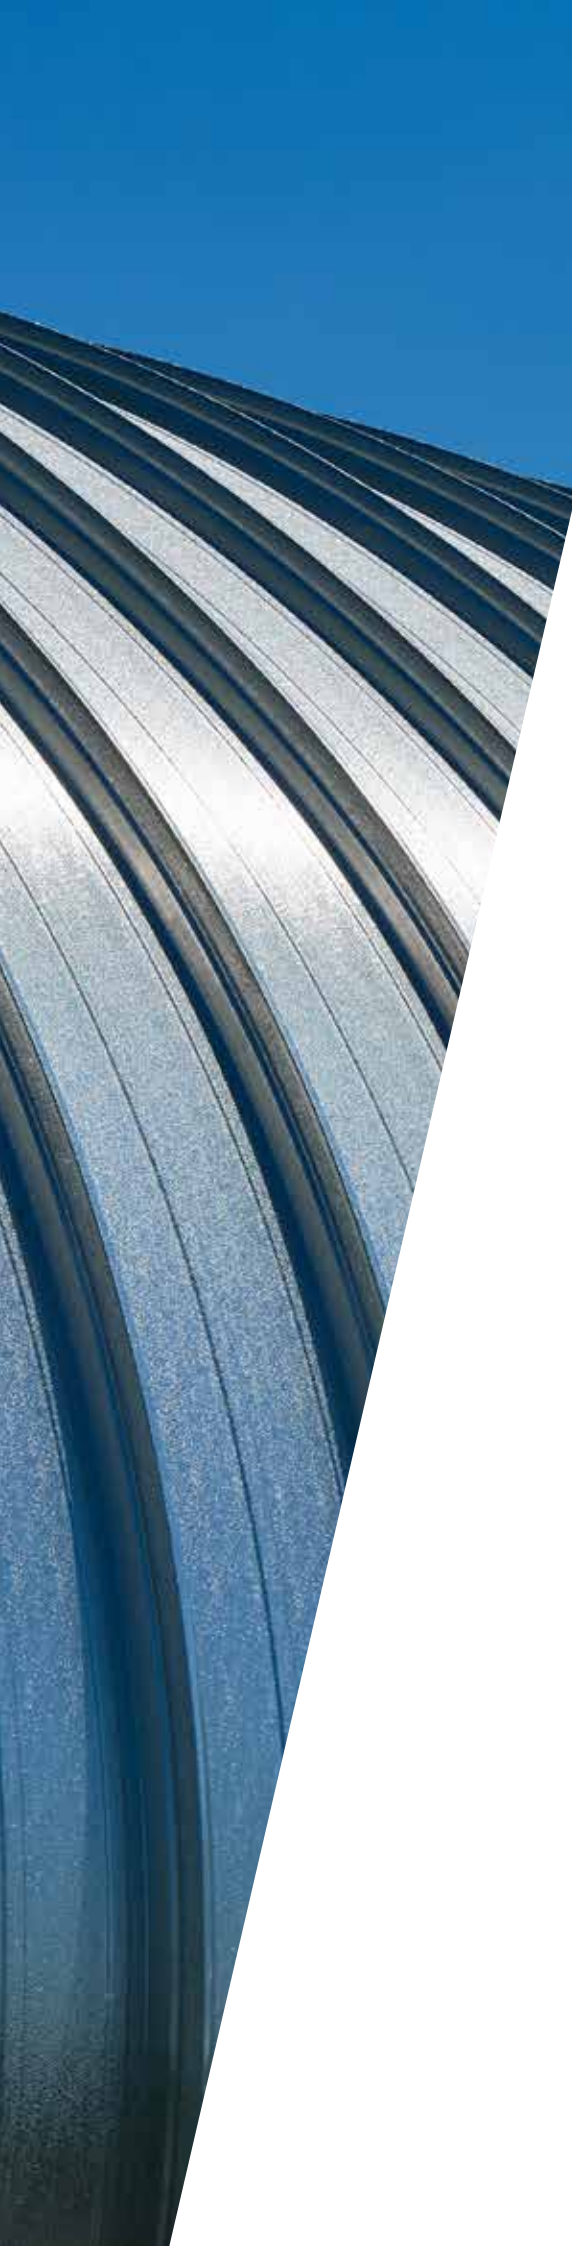

- natural finish, no coating required
- long lifespan due to corrosion resistance
- self-cleaning character of the material
- exquisite matt grey surface due to patina formation

COPPER

mill finish
0.6 mm

- natural finish, no coating required
- long lifespan due to corrosion resistance
- no rear side corrosion
- good workability
- colour gradients up to green colouration result from patina formation

MILL FINISH, ELEGANT OR ANTIQUE'

RIB-ROOF metal roofing systems offer you various surface refinements of aluminium and steel materials. The matt surfaces greatly reduce light reflection. This is often an advantage for exposed building locations. Copper and titanium zinc are optionally available in prepatinated design. This allows for various natural nuances. They can thus discount natural weather-related colour changes. .

SPECIAL SURFACES

ALU PATINA

- reduces glare by anodisation
- weather resistant and sturdy
- low weight

ALUMINIUM ZINC LOOK

- the optics of weathered zinc
- low weight
- weather resistant and sturdy

**ALUMINIUM
STUCCO EMBOSSSED
PATINA MATT**

- high-grade optics
- low weight
- weather resistant and sturdy
- stucco-embossed reduces glare by means of diffuse reflection

ALUNATUR

- highlights the natural character of aluminium
- refinement by (semi-)transparent clearcoats
- available in many colour variations
- low weight
- weather resistant and sturdy

COLOUR GAME UNLIMITED

Colours create the mood for buildings. Why then should your roof be grey? The RIB-ROOF colour line offers everything you could wish for from cool modern designs and pop art to warm earth tones. Our coatings meet the highest requirements for weather and corrosion resistance. Your enjoyment of the game on colours will thus know no end, even after many years.

HIGHLY RESISTANT TO UV LIGHT

ECO-FRIENDLY

CORROSION-RESISTANT

FOR ALL ROOF SHAPES

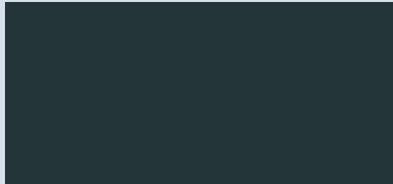

COLOUR COATINGS

ZAMBELLI STANDARD COLOURS

RAL 3009 OXIDE RED

Steel galvanised,
polyester coated 0.63 mm
Aluminium polyester coated 0.8 mm

RAL 7016 ANTHRACITE GREY

Steel galvanised,
polyester coated 0.63 mm
Aluminium polyester
coated 0.7 mm / 0.8 mm / 1.0 mm

RAL 7037 DUSTY GREY

Steel galvanised,
polyester coated 0.63 mm
Aluminium polyester coated 0.8 mm

RAL 8004 COPPER BROWN

Aluminium polyester coated 0.8 mm

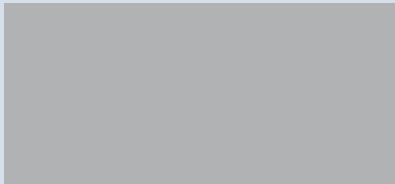

RAL 8014 SEPIA BROWN

Aluminium polyester coated 0.8 mm

RAL 8023 ORANGE BROWN

Aluminium polyester coated 0.8 mm

RAL 9006 WHITE ALUMINIUM

Steel galvanised,
polyester coated 0.63 mm
Aluminium
polyester coated 0.8 mm / 1.0 mm

RAL 9007 GREY ALUMINIUM

Steel galvanised,
polyester coated 0.63 mm
Aluminium
polyester coated 0.8 mm / 1.0 mm

Shown colour coatings are in stock. Colour illustrations similar to RAL. Other colours on request.
