
STORM PROTECTION
FOR DOUBLE PITCH RIDGE CAP & VENTILATION RIDGE CAP

Better safe than sorry! In addition to the proven construction kits for ridge and ventilation ridge caps of our RIB-ROOF systems, a special storm protection has been developed, which at the same time serves as an assembly jig for installation of the closure. This completes Zambelli's wide range of accessories enablling safe and simple installation.

YOUR BENEFITS

- Storm protection for ridge caps in wind-exposed areas
- Rigid reinforcement of the construction parts
- Functions as an assembly jig saving your time and effort

TECHNICAL DETAILS

- Corrosion-protected steel sheet 1.0 mm
- Fits the ridge design accurately
- Construction width 120 mm, pre-perforated
- Also available for ventilation ridge cap
